

DISCOVERING SEKINCHAN'S HIDDEN GEM

Ninja Private Kitchen (NPK) started when COVID-19 hit Malaysia in the year 2019. A passion project spearheaded by globetrotting talented portrait photographer, Zung Ninja to revive his beloved hometown Sekinchan, Malaysia, with indigenous culture and unique outdoor dining experience.

Nestled in the idyllic yet picturesque paddy fields with water irrigation in a grid structure built by the British since colonization, this charming location is 10 minute's drive from the Redang beach, and about 1.5 hour's drive from KL city centre via highways. This makes NPK a popular destination for a half-day Free & Easy Getaway, or overnight stay without hassle.

THE BEST TOURISM SPOT OF THE YEAR

In NPK, Zung Ninja aka "Chief Eating Officer" leads a local team, formed by villagers including single mums, carpenters, grandmas, and school dropouts. They have no proper F&B experience, yet they serve from their hearts. They work closely with the local farmers, and fishermen for the freshest "Produce Harvested" and "Catches of the Day". The spread is a combo of the "Farm to Table, Sea to Table" concept. The "SUNSET PICNIC" private dining "Only by Advance Reservation" is available upon request, and ends by twilight for the best scenery and comfort. Professional Portrait from their parent company, the Photoz, is the most popular service among other arrangements for a memorable Highlight.

NPK aims to build a sustainable economy with local fisheries and agriculture. The kitchen looks forward to creating more job opportunities and exposure for the locals and interested parties. Promoting the local TeoChew cultures special to Sekinchan, with the "Mix N Match" decors hand carried by Zung Ninja from six continents, under mesmerizing skylscapes, this event space has regular guests ranging from ambassadors, celebrities, corporates, sports car drive, media launches, wedding couples, international tourists, and locals who want NOT only a Normal Restaurant, Nor a Meal, But A Lifetime Experience.
