

THE MOST ENVIRONMENTAL FRIENDLY RESTAURANT

Tanah Aina, a collection of eco-resorts, cafes, and restaurants located in Pahang, Johor, and Selangor, offers visitors an authentic eco-tourism experience in the lush tropical rainforests of Malaysia. Founded by Puan Sri Datuk Dr Sabrina, Tanah Aina Sdn Bhd was established in March 2009, with the resorts opening their doors to guests on October 15, 2010. Puan Sri Sabrina, a nature enthusiast, chose the name Tanah Aina to promote Malaysia's eco-tourism on a global scale through a local brand. "Tanah" means land in Bahasa Malaysia, while "Aina" is her nickname.

The resorts are named after Puan Sri Sabrina's children and grandchildren, showcasing her deep-rooted commitment to family and environmental preservation. As the president of the Organisation for the Protection of Natural Heritage Malaysia (Pertubuhan Pelindung Khazanah Alam Malaysia, PEKA), she personally oversaw the construction of the resorts, ensuring no trees were felled and no rocks were disturbed in the nearby river.

JOURNEY OF LOVE BACK TO NATURE

At Tanah Aina, the use of natural materials and recycled wood, such as bamboo, kempas, and jati, is maximized in the resort's construction. The chalets' walls are covered with nipah, seamlessly blending them with the surrounding environment. To promote sustainability, the resorts provide organic, natural, and environmentally-friendly soap, shampoo, conditioner, and hand wash liquid. Water is sourced from the mountains, filtered, and channeled to the bathrooms and kitchens, emphasizing the resort's commitment to responsible resource management.

Tanah Aina resorts serve as a home to a diverse array of flora and fauna, nestled among ancient trees, including a variety of fruit trees and durian trees that were planted during the resort's establishment. In its endeavor to reconnect people with nature, Tanah Aina has expanded its offerings with other resorts adhering to the same eco-friendly concept. These include Tanah Aina Farouq Orchard in Raub, Pahang, and Tanah Aina Fahad Glamping Resort in Ulu Dong, Pahang.

Tanah Aina Eco-Resort has garnered numerous international awards for its exceptional commitment to maintaining an eco-friendly environment, as well as its dedication to responsible operations and governance. These accolades serve as a testament to the resort's unwavering efforts in preserving nature and showcasing the possibilities of sustainable tourism. Through its harmonious blend of eco-conscious practices and a captivating natural setting, Tanah Aina continues to inspire visitors and locals alike to appreciate and protect the environment.
